The committee having the Grand Ball in charge which is to be given in Union Hall on Saturday evening, May 15th, by the Woodmen of the World are sparing no pains to make it one of the most popular dances of the season. The lawn swing, given as a door prize is worth every cent of \$7 and the party who wins it can place it in their front yard as it is neatly designed and has two seats which can be placed in any position. The two prizes to be given to those winning the prize waltz will probably be a solid gold ring for the lady and a scarf pin for the gentleman.

It will not be necessary for those who do not wish to compete for the prizes to remain off the floor for the dance, as it is desired that all dance and allow the judges to pick out the couples whom they think the best. After the music stops the first time, however, only those competing will be allowed on the floor, and the prizes will not even then be given to couples, but to individuals, even though it be necessary to change partners to satisfy the judges. Now is the time to get ready for the contest.

The committee having the banquet in charge assure us that the banquet, which will be given in the Woodmen Hall, is going to be one of the best for the money ever given in Sonoma.

We understand that the hall will be decorated and we can assure everyone the programs, which we are now printing for the dance, will be the finest ever seen in Sonoma and printed on paper imitating onyx, which when held to the light almost makes one believe they hold a slab of onyx in their hand.

A Fine Trophy

The elegant trophy to be given by the Sonoma County Automobile Association in the road race to be held in Santa Rosa Sunday, May 9, is said to be one of the most tasteful and costly trophies ever given. This race is the first grand prize race to be sanctioned and given West of the Rocky Mountains, and it will be the only one given on the coast this year. This means much to Sonoma county, and will bring hundreds of cars to this section, enthusiastic motorists by the additional hundreds. It is estimated that at the least number there will be 250 autos here the day of the carnival and the races, and these will contain an average of at least four persons each. This will make over a thousand automobile visitors in the City of Roses at that time.

The trophy is of magnesium bronze, the finest that can be made. It represents a large African lion fighting with a tiger. The lion has apparently won the fight, for he has the tiger down and his claws are sunk deep in the flesh of the latter, showing the drawn flesh as natural as it could be done in life. The tiger is seemingly vanquished, but has not given up the struggle. All who have seen the trophy declare it to be the handsomest thing in its line ever offered in an auto contest.

There is not a defective feature on the trophy, even the hair of the two beasts standing out in perfect style, and the claws are perfectly made, showing how they are sunk in the flesh of the animal.

Fifteen hundred invitations are being sent out by the Motor Club to auto owners, asking them to participate in the run.

Celebrate Anniversary

The Odd Fellows and Rebekahs of our city met in I. O. O. F. Hall on Monday evening for the purpose of celebrating the 90th anniversary of the Order of Odd Fellows and from all reports we understand that all had a good time. There was a nice program rendered, composed chiefly of vocal music and the reading of the history of the order by J. H. Wagner. The music was very nice and ably presented and the history held the attention of the assembly from beginning to end, bringing out the many excellent points inculcated in their beliefs and endeavors.

Refreshments were served to the large assembly and was enjoyed by all.

Before leaving the younger members were allowed to trip the light fantastic toe for a few minutes.

COMING HOME IN THE DARK

The tunnel was dark, the tunnel was long, And the lights had all gone out. The temptation was assuredly strong— Of that there could be no doubt. She was sitting by a poorly lit lamp Of thirty summers or less; When a sudden knock came that I would kiss That vision of loveliness! Though the risk was great, I thought it worth while.

For I was full of romance, And to steal a kiss in a suggestive style The pleasure could but enhance! So when we had come to the darkest part I gave her a silent smack. When I didn't expect it—bloss my heart! It didn't kiss me back! We gazed at each other in shy surprise, Wash from the tunnel we sped. The other passengers must have got wise, For our cheeks were burning red. At the next depot we left the train, When I lost my chamber fair, I thought I should never see her again, For which I didn't much care. But, when I got home, there was the maid, And gave me such a look, "Who is that, mother?" I asked. She said, "Why Bobby, that our new cook!" —New York Times.

Wonders of the Wireless

As soon as the Metropolitan tower is finished it is proposed to erect a wireless station up in it, by means of which, it is hoped, communication with the Eiffel Tower station in Paris may be permanently maintained. There seems to be no reason why this should not be done. Dr. De Forest does not hesitate to say that the system of wireless telephone stations which he is now planning to establish along the Atlantic Coast will provide adequate vocal communication between all the large cities of the Eastern seaboard. So it will hardly seem surprising to send aerograms to Paris.

Indeed the most serious rival of the wireless telegraph is wireless telephone. All the battle-ships of the Atlantic fleet are equipped with it, and the Italian Navy has adopted it. British war ships have talked together while under full head of steam fifty miles away from each other. Improvements are constantly being achieved in this latest invention, and the possibilities of its development no man can prophesy.

In the American Navy, use of the wireless plays an important part in all battle maneuvers, and experiments are being conducted by the Army signal corps with a view to employing it as an adjunct to the field telegraph and telephone as well as providing a means of communication between war balloons and airships and the earth. In future campaigns on land or sea it is destined to play as prominent a role as any of the engines of destruction. And with the time not distant, according to many engineers, when Bellini and Tosi will perfect their device for independent communication—too complicatedly simple for the layman to understand—and when Hans Krouse will succeed in working linotype machines by wireless waves, not to speak of flashing perfect photographs through the infinite ether, what seems the fairy tale of to-day will be the familiar proceedings of to-morrow.—Arthur D. Howden Smith in Putnam's.

Takes His Life

The people of Sonoma and vicinity were shocked last Saturday evening when they heard the news that John Castagnetto had taken his life by shooting himself in the head.

It seems the young man had been working very hard of late and had not been in the best of health. Rumor has it that he was despondent over the fact that he was likely to be come blind and that it was this that led him to take his life.

He had just returned from Bato & Son's wholesale store at six o'clock with a load of feed and a few minutes later the shot was heard and investigation proved that he had been shot.

Cornor Frank L. Blackburn came to Sonoma Sunday and held an inquest, the jury finding that Castagnetto came to his death by a gunshot wound in the head, self-inflicted. He was a native of Sonoma valley and died at the age of 25. He leaves a mother and three brothers to mourn their loss and all extend their sympathies to those bereaved.

The funeral was held from Bates' undertaking parlors on Tuesday at 2 P. M. Interment in Catholic Cemetery.

Came From England

From far off Norfolkshire, England, a pretty English girl crossed the ocean and continent to wed the man of her choice. The fact caused John Lamb, a popular young resident of Kenwood to take the early Southern Pacific train on Saturday morning to proceed to Oakland, there to meet Miss Fannie Perfit. The wedding will take place in St. Luke's Episcopal Church, San Francisco, with the Rev. Frederick W. Clappett, D. D., the rector officiating. The couple will be at home to their friends in the Los Guillicos Valley after May 1. The bride has a uncle residing in the state of Nebraska, and en route to the Golden West she spent a few days with him.—Press Democrat.

Dennis McCarthy

Last Saturday morning the body of Dennis McCarthy arrived in Sonoma from the east accompanied by his father and was buried in the Mountain Cemetery. He died in Syracuse, N. Y. on April 10th, leaving this world at the age of 30 years. He was a great grandson of Gen. Vallejo.

A. E. Sondag, the Tailor

A. E. Sondag, the tailor, formerly of Sonoma, was in the valley this week taking orders for men's tailor-made suits. Mr. Sondag and family are temporarily located in Fruitvale, but the former expects to get permanent quarters for his tailoring establishment in the metropolis in the near future. For many years he has enjoyed a liberal patronage from this valley and his work always gives satisfaction. Mr. Sondag will make regular weekly trips to the valley and solicits a share of the trade. Give him a trial order for a good suit and you'll be satisfied.

Aha! Discovered!

A local news paper man, of Sonoma visited Chicken Villa near El Verano last Sunday. He always talks about F. Riser gorging himself and Pop Bridges, second best, but he headed the list by eating a whole chicken and a half (Old hens at that) and it was several hours before the above mentioned party could get down to normal size so he could have his picture taken. The residents of El Verano are not looking forward to having him come again.

FRIDAY, APRIL 30 1909.

The Women's Club of this City are in receipt of a letter from Mrs. Alice Hare, of San Jose asking them to take action and co-operate with the other clubs in promoting the project of the erection of bell sign posts along the historic way to our Mission and old Fort Ross. It is the intention of this association to erect these sign posts at state intervals along the entire route. It was suggested to us before this action is taken that the Native Sons of our city take some action toward restoring the Mission to a fitting condition, whereby visitors would not have an opportunity to comment on the way this noted structure has been neglected. Inasmuch as the State is poverty stricken (2) and unable to raise the sum of \$3000 it is up to Sonoma to look after this, and were we led by the Native Sons in this matter it is very probable that we could fix things up to be a little more presentable around Mission San Francisco De Solano. What say you?

Public Library

A petition is being signed by the voters in this city asking the Board of Trustees to establish a public library and now has about 70 signatures. This movement is being promoted by the Woman's Improvement Club, who inform us that the library now conducted by them is growing beyond them. They now have about 300 cards issued and have arranged matters so that each member takes her turn as acting librarian for six evenings in succession.

Last year we understand they petitioned the board to furnish a regular librarian at a stated salary, but their petition arrived too late to take suitable action.

We hope that this time they will succeed in their endeavors in establishing a library, large enough to supply the demand, conducted on the usual free library plan with a paid librarian. Sign up, boys.

Lesson on Tariff Making

The attention of the country, which has been fixed as it never was before on the method of making tariff laws, should not be relaxed until the new bill becomes a law.

It must be admitted that this should be adjusted with reference to the interests and just claims of the largest number, that it should be based on a national policy, not on the demands of particular interests. An attempt has been made by the committee on Ways and Means to put an unwarranted enormously increased tax on hosiery and gloves. This brought forth such an outcry from the women of every section of the country that the Finance Committee of the Senate has recommended the duties of these articles should be increased. This does not mean that the Senate's recommendation will be the laws. After being debated in the Senate for sometime the bill will be referred to a committee composed of members from the House and Senate, and it is there the real work of making the new tariff will occur.

Statistics show that the hosiery and gloves industries are amply protected. It has been figured out that the proposed advance in duties would increase the cost of living to an average family of six over \$20 per year. It would be a good idea for the women, and the men too for that matter, to write to Congress man Duncan McKinlay on the subject, commending the Senate's action and at the same time let him know what you think of a prohibitive tax on stockings and gloves.

The lesson being brought home to the country at large that Congress will respond to the will of the people if they only insist on what they want.

Clewe-Smith To Wed

In Santa Rosa on Wednesday May 12th, will occur the marriage of Miss Harriet Porter Smith, of Santa Rosa, to William Clewe, of this city. The ceremony will be solemnized in the Church of Incarnation at 8:30 P. M., Rev. G. M. Cutting, of San Rafael, assisted by Rev. G. A. Baker, officiating.

Miss May Smith, sister of the bride, will be the maid of honor. Miss Harriet P. Smith, cousin of the bride, and Miss Doris Clewe, sister of the groom, will be bridesmaids. Temple Smith, brother of the bride, will give the bride away.

Although no formal invitations for the wedding have been issued the young people expect many of their friends will be present to witness the ceremony.

Vacation 1909

In a larger and more interesting form than ever the Northwestern Pacific Railroad's "Vacation 1909," has been issued under the direction of General Passenger Agent J. J. Gary. It has been given a wide distribution and will be the means of again attracting to Sonoma, Marin, Mendocino and Lake Counties thousands of summer outing people.

The booklet is profusely illustrated with views of hundreds of summer resorts that abound in this favorite section of the state. A glance at "Vacation 1909" shows that Sonoma County is to the front in many ways in its offering of summer outing places. In addition there is a list of hotels and their rates in each city and town of prominence. It is a valuable book and not only a good boon for the rail road but for the cities, towns and hamlets and entire section of the state, as it mentions much of interests concerning the productivity of the counties. Each year Sonoma County has become increasingly popular as a summer vacation place.

MRS. CASTAGNETTO AND FAMILY.

Abdul Hamid Deposed

Abdul Hamid II, Sultan of Turkey was April 27 deposed from the throne of the Ottoman Empire by his subjects for the interference with the progress of popular government under the constitution granted by him last July, and his brother, Mehmed Reschad Effendi, now occupies the throne.

This change was decided upon by the National Assembly without a dissenting voice, and it was carried out with the utmost rapidity. The Sultan is now a prisoner in the hands of the young Turks and is carefully guarded by his captors.

The formal decree removing Abdul Hamid from all power of the Turkish Empire was issued by the Sheikh ul Islam, the head of the church, in the form prescribed by the tenets of the Mohammedan faith.

The deposed Sultan desired to go abroad, but was denied the privilege, and will be kept in Constantinople or European Turkey.

The new Sultan, who has just been released from twenty five years imprisonment, is strongly in favor of the Constitutional government. He is well educated but, entirely unfamiliar with public affairs.

The City of Constantinople is alive with excitement and throngs fill the streets. A number of arrests have been made, but the change of sovereigns has been done without disorder of any kind. A salute of 101 guns announcing the end of the reign of Abdul Hamid and the beginning of that of Mohammed Reschad Effendi, was fired.

Work on New Court House

The plastering work on the new courthouse, which has been interrupted for a couple of days, is again going on. Seven men resumed work at one o'clock Monday afternoon, after having left their work last Friday because of some difficulty with the contractors, Morrison & Scharf. Attachments that were filed against the contractors for \$123 by B. L. Burke, one of the bond carriers. Something like half of this represented wages due him, and the balance has been assigned to him by other workmen. This sum was deposited in the court of Justice Atchinson and the men paid off, with the exception of Burke, against whom were some attachments approximately covering what was due him from the contractors.

Of the twelve men quitting Friday, seven have returned to work, that number the contractors declare, is all that can be used. Three weeks is the time estimated by them as the time necessary to finish their contract. Less time would be required if the dome was in readiness for them to begin plastering there.

The chefs of the leading hotels and cafes of the country are working overtime to invent new dishes in which raisins may be used. There will be raisin salads, punches, puddings and then just plain raisins. Chefs are vying with one another in their ambition to concoct raisin dishes that will tickle the palate, and many new and delicious dishes will be served today in hotels, restaurants and cafes throughout the country.

And now we are mad, and the reason therefore is that some one has stolen our columns to tell the public that we had one square meal in our lives—last Sunday. And in our anger we have kicked the "printers' devil," fired the compositor and broke a few ribs of the foreman in our office. The next man we're after is the one who bribed our forces, and when we get him he'll be up against the real thing. So beware, we're on your trail.

Men have been busy this week with plows, scrapers, etc. grading the driveway through the plaza and have had to do considerable blasting to break up the hardpan. FACE TO FACE.

A New Problem For Women.

In the looking-glass a woman often sees wrinkles, hollow circles under the eyes, crow's feet—all because she did not turn to the right remedy when worn down with those troubles which are distinctly feminine. Backache, lassitude, nervousness and the pains and drains of womanhood bring such untold suffering that the face is sure to show it.

Every woman, young or old, is well protected from the blues, nervousness, backache, and the many symptoms of disease so prevalent among our women—if they will conscientiously take Doctor Pierce's Favorite Prescription, a safe and sure remedy for the ills of womanhood, because it contains not a particle of alcohol, digitalis or any deleterious drugs. Weak women are made strong and sick women are made well by this splendid prescription which was used by Doctor Pierce in his large private practice in the specialty of women's diseases. Every woman troubled in this way should write him about her case, care of Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Many times women call on their family physicians, suffering as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and

there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he assumes them to be such, prescribes his pills and potions. In reality they are only symptoms caused by some womb disease. The physician ignorant of the cause of suffering, encourages this practice until large bills are made. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause, would have entirely removed the disease, thereby dispelling all those distressing symptoms, and insuring comfort instead of prolonged misery. It has been well said that "a disease known is half cured." In cases almost innumerable, after all other medicines had failed to help and doctors had said there was no cure possible, the use of Dr. Pierce's Favorite Prescription, supplemented, when necessary, by the medical advice and counsel of Dr. Pierce, has resulted in a perfect and permanent cure.

THE SECRET OUT. To refute the many false and malicious attacks, bogus formulae and other untruthful statements published concerning Dr. Pierce's Family Medicine, the Doctor has decided to publish all the ingredients entering into them and place the same on the wrapper inclosing each bottle. The exact working formula for making these medicines cost Dr. Pierce and his collaborating Chemists and Pharmacists many years of study and experiments, but as perfected they produce almost perfect pharmaceutical compounds, embodying all the active medicinal principles residing in the ingredients employed, and preserving them perfectly for any length of time and in any climate without the use of a drop of alcohol.

These are the Original Little Women's Liver Pills, first put on over 20 years ago, by old Dr. R. V. Pierce. They've been much imitated but never equalled. Smallest, easiest to take and best. They're this sugar-coated, anti-bilious granules, a compound of refined and concentrated vegetable extracts. They're free from all trouble, constipation, indigestion, bilious attacks, sick and bloated heads, and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured. Permanently cured, too, by their mild and natural action. These little pills gently lead the system into natural ways again. Their influence kind.

The most memorial wreck in the

history of the American surf was that

of the bark Mexico, stranded on

Hempstead Beach, Long Island,

early in the morning of Jan. 3, 1837.

She carried 104 passengers and a

crew of twelve men. Four passen-

gers and four of the crew were saved

by a surfboat from the beach under

the command of Roynor Rock

Smith. All others were frozen to

death, though the wreck was so

close to the shore that their cries

and even some of their words were

plainly heard on the beach. It was

the story of this wreck, as published

throughout the nation, that led to

the establishment of the United

States life saving service.—Scrap

Book.

The bayonet was due to the

fortunate inspiration of a Basque

soldier, who, when he and his

regiment, having expended their

ammunition, were driven to bay on

a mountain ridge near Bayonne,

suggested that they should fix the

long knives with which they were

armed into the musket barrels and

charge the enemy. This advice,

which was followed with complete

success, was the means of introduc-

ing the weapon to the notice of

military Europe.

The best known pills and the best

pills made are DeWitt's Little

John Walter Wilson has been

found guilty of murder of his for-

mer employer, Harry Boas, in one

of the most remarkable trials ever

held in San Francisco. His guilt

was determined by science, which

confirmed beyond doubt the other-

wise unsupported theories of the

detectives.

This is the most dangerous time

of the year to take cold, and it is

the hardest time to cure it. If you

should take a cold, a few doses of

Kennedy's Laxative Cough Syrup

will act very promptly. Its laxa-

tive principle cures the cold by

driving it from the system by a

gentle but natural action of the

bowels. Children especially like

Kennedy's Laxative Cough Syrup,

as it tastes so good, nearly like

sugar. It is sold by all druggists.

A crank came running into the

office and said a man swallowed a

two foot rule and died by inches. The

editor started out at once to learn

further particulars of the death and

meeting Dr. Martens told him about

the case. He said that was nothing;

that he had a patient once who

swallowed a thermometer and died

by degrees. A couple of bystanders

just then chimed in. One of them

said it reminded him of a fellow in

Kansas who swallowed a pistol and

went off easy. The other one said

he had a friend who took a quart of

the states of Guerrero and Oaxaca,

Mexico, have been severely shaken

by earthquakes at short intervals

during the last few days. Dis-

patches from many places says

that considerable damage has been

done, but no lives lost. Colima

has started a fresh eruption and

belching forth enormous quanti-

ties of ashes and lava. The smoke

settled over the country for many

miles around the mountain. At

night the heavens are lighted by

the flames. The more timid inha-

bitants are fleeing. Tremendous

detonations set the earth quiver day

and night. Crowds of panic-strick-

en people stand in the plaza and

open places watching the mountain.

Many families have spent the night

out of doors.

Declaring they have been operat-

ing one of the largest branches of a

San Francisco lottery, which was

raided recently, Post-office inspec-

A charge of violating the postal laws

alleged branch of the concern was

raided Friday in Columbus, Ohio.

A telegram was received Satur-

day from Barnett, who is now in

New York, that the outlook for or-

ganizing a big holding company to

take over the defunct California Safe

Deposit and Trust Company is pro-

miseing. He advised against the

selling of the lumber company

stock and railroad stock on the

ground that prices would be better

later. Western Pacific sold in New

York for \$33, and he believes it will

go higher and that it is very prob-

able that the depositors will get their

money dollar for dollar.
